Los Angeles Unified School District
Invites LAUSD high school students, ages 16-18 to apply for paid training and work experience, leading to an Entry-level position in the Energy Management Field Through the Student Energy Auditor Training (SEAT) Program

THE PROGRAM
Through a partnership with Building Performance Institute (BPI) and the California Conservation Corps, LAUSD students will learn how to inspect and survey energy systems and functions; collect on-site energy usage data, use an electronic tablet and recognize the importance of conserving natural resources. Students will receive a stipend for work during training and earn 10 to 20 Work Experience Education credits for the one year program. Training will take place at designated LAUSD sites from 1 p.m. to 5 p.m. Students must obtain approval from their school counselor for schedule accommodation and early leave. As part of the training, students will prepare and sit for the national certification examination for the position of Building Analyst. Upon passage of the exam, students will be able to apply for specific, good-paying positions within the field of energy management.

APPLICATION REQUIREMENTS
1. Resume; 2) Cover letter indicating interest in energy-related occupations; 3. Two letters of recommendation; 4) Unofficial transcripts.

Application deadline: November 3, 2017
